The NSTT No-Dig Event in 2023 will be organized for the seventh time by the NSTT.

The NSTT is the Dutch organization for trenchless techniques and applications. Together with over 250 companies, government organisations and other people, we are working on an underground infrastructure without hindrance.

For more information check www.nstt.nl.

NSTT No-Dig Event

SEE – KNOW – EXPERIENCE

On October 11 and 12, 2023 the NSTT No-Dig Event will open its doors for the seventh edition of the largest trade fair in the field of trenchless techniques in the Benelux.

The Event will take place in Hart van Holland, Nijkerk. It is located centrally, easily accessible by your own or public transport, has spacious parking and it has its own restaurant and hotel on site.

Trade Fair

The Event offers space for 80 exhibitors who together receive 1500-2000 professionals from municipalities, network operators, engineers and consultancy firms, contractors and suppliers

Knowledge program

Two theaters provide space for a large number of subject-oriented lectures.

Also the knowledge program offers subject-oriented courses from external trainers.

Outdoor program

The event offers more than 1000m² of live demonstrations on and below surface.

In addition, there is sufficient space for exhibiting large and rotating equipment

Meeting square

All visitors and exhibitors meet at the central meeting square.

In 2023 the Event offers exhibitors:

- Direct contact with about 1500 to 2000 professionals;
- Possibilities to give a lecture in the knowledge program or a live-demonstration on the terrain outside;
- Exposure on all parts and publications of the event, after registration;
- Attention to for your organization before, during and after the event in multiple magazines and on social media.

This NSTT No-Dig Event is a unique opportunity for both visitors and exhibitors to obtain up to date information on trenchless techniques and its contribution to sustainability, less nuisance, economic benefits and energy transition.

You do not want to miss it!

In this Exhibitors Guide you will find all the information necessary. On www.no-dig-event.nl/information the most recent version can be found.

Still got questions? Send an email to info@no-dig-event.nl.

We'll glad to see you on october 11 and 12 2023 at Hart van Holland!

1. Important information

1.1. Location

The NSTT No-Dig Event is, for the fourth time, located at Hart van Holland, Berencamperweg 4, 3861 MC te Nijkerk.

The location features large exhibition halls connected to a large outside terrain, on which live demonstrations take place. There is also a hotel and a restaurant at Hart van Holland, which can be useful for exhibitors who have to stay overnight. The terrain also has a large parking facility, which will be free for all exhibitors and their visitors.

Accessibility:

Hart van Holland is centrally located in the Netherlands and is accessible with both private and public transportation.

By car

From Amsterdam (A1) and Utrecht (A28):

From junction Hoevelaken to Zwolle (A28) take exit 9, Nijkerk. Go right at the stoplights to Nijkerk/Putten. Follow the direction of the road and after about 900 meters you'll see the Hart van Holland at your right.

From Zwolle (A28):

Take exit 9, Nijkerk. Go left at the stoplights to Nijkerk/Putten. Follow the direction of the road and after about 1 kilometer you'll see the Hart van Holland on your right.

Loading and unloading

Address: De Loods, Gildenstraat 15, 3861 RG Nijkerk. Door 3 and 4.

From the A28 exit 9, Nijkerk. Berencamperweg. Go right at the second exit.: Ambachtsstraat. Go left after 380 meters to the Gildenstraat.

Public transport:

The NS train station Nijkerk can be reached with the train from Amersfoort and Zwolle (2 times per hour, both ways) Free shuttle busses will ride between the station and Hart van Holland on the days of the Event.

1.2. Opening times, assembly and disassembly times

Opening times for visitors:

Wednesday October 11, 2023 from 10.00 – 18.00

Thursday October 12, 2023 from 10.00 – 18.00

Stand assembly:

On Tuesday October 10, 2023 from 8:00-22:00 the self-assembly and demo stands can start the assembly and there will also be occasion to build the standard stands.

Disassembly times:

Disassembly standard stands: Thursday October 12, 2023 from 18.00 – 19.00

Disassembly of own stands and standard stands: Thursday October 12, 2023 from 18.00 – 22.00

NB. It is not allowed to disassemble your stand before 18:00.

2. Possibilities

Exhibitors can take on stands both inside the exhibition hall and outside on the terrain. Inside there is a various amount of different types of stands.

A. Standard stand of 8, 16 or 32 m². Inside hall 1 and 2. You only bring your own banner or leaflets.

B. Own stand construction of 8, 16 or 32 m². Inside hall 1 and 2. Your stand is entirely within your own business philosophy

C. Outdoor stand can be set up according to your own insight. You show live what your people and equipment have to offer.

D. Equipment stand 50m² Inside hall 2. You will impress your visitors with your own equipment.

Exhibitors can contact their preference for the stand location. These preferences will be taken into consideration as much as possible. However, the stand locations outside can only be assigned by the organization; date of registration will be the leading factor in those decisions. Correspondence on this will not be possible.

2.1. Standard stands

The standard stands are situated in hall 1 and 2. There are a couple possibilities:

- Standard stand 8m² (4 meter wide, 2 meter deep);
- Standard stand 16 m² (4 meter wide x 4 meter deep);
- Standard stand 32 m² (8 meter wide x 4 meter deep).

The standard stand includes carpet, standard furniture, frieze, two (corner stand) or three (in between stand) solid walls and electricity (220 V/ 3 kW).

Further terms can be found under 2.5 and 8.

2.2. Self-assembly indoor stands

The standard stands can be replaced by self-assembly stands. This comes with the following terms:

- The length and widespread of the self-assembly stands cannot be bigger than the sizes of the standard stands.
- The maximal height of the stand is 4 meters (available working space is 4.45 meters).
- The maximal floor load is 2.000 kg/m²;
- The self-assembly stands must be neatly finished at the back. Special attributes, such as tents, stalls etc. are only allowed after consultation with the location.
- A blueprint including all used materials needs to be handed in to the organization no later than September 15, 2023.
- The organization has the right to give compelling directions about the assembly of a stand and the thereby used materials.

If desired, we can put you in touch with a stand builder. Please contact the organization via info@no-dig-event.nl.

Further terms can be found under 2.5 and 8.

2.3. Demonstration stands for equipment and material

The equipment stands are situated in hall 2. They are to be used for presenting large materials or equipment. The materials may not cause noise, smell or other disturbance during the Event. The stands will be separated by the organization with plants or partitions, with a maximum height up to 1,5 m.

The equipment stands must meet the following conditions:

- A blueprint of the design of the stand surface, with equipment specifications (length, width, height and weight) must be handed in no later than September 15, 2023.

- The stand surface may not outreach 5 x 10 meters;
- The equipment stands will be physically separated by the organization at the height of 1,2 – 1,5 meter. Therefore, they may not have side or rear walls.
- Only vehicles that are permitted on all Dutch roads can be placed.
- The equipment stands (inside) may not cause noise, smell or other disturbance during the Event. At the same, spinning mechanisms are also forbidden due to safety regulations.
- The organization has the right to give compelling directions about the assembly of a stand and the thereby used materials.

Further terms can be found under 2.5 and 8.

2.4. Outdoor stands

The outdoor stands are situated outside, next to the exhibition hall.

- The maximum surface area is 10 m x 10 m;
- A blueprint of the design of the stand surface, with equipment specifications (length, width, height and weight) must be handed in no later than September 15, 2023.
- Allocation of the stand location occurs during consultation with the organization and is partly dependent on the logistics and build of the stand.

Further terms can be found under 2.5 and 8.

2.5. Additional terms

For the indoor stands (standard, self-assembly and equipment) the following applies:

- For unloading (heavy) equipment, you must provide a suitable crane yourself.
- For heavy materials up to 3000 kg a forklift truck is available upon. You must download the document 'aanvraag heftruck' via our website and send it to info@no-dig-event.nl It is not possible to arrange this on the day itself.
- If the materials are heavier than 3000 kg, you must provide a forklift truck yourself. Consultation with the organization is necessary.
- The organizers have the right to refuse to allow equipment to be placed if this creates a risk for the driver, the staff or other persons present at the location.

For both indoor and outdoor stands the following applies:

- The organizers have the right to refuse equipment to be placed if this creates a risk for the driver, the staff or other persons present at the location.
- Special objects such as tents, stalls, etc may only be installed by agreement with the venue.
- Damage on the terrain is on your own risk.
- It is not possible to warehouse materials or equipment during or after the event or to pick them up later, without consultation with the venue.
- If you wish to view the venue beforehand, please contact with [Hart van Holland](#).

Further terms can be found under 8.

2.6. Floor plan

The latest [floor plan](#) can be found on our website.

3. Side program

3.1. Knowledge program

Lectures

The lecture program will be set up thematically. A lecture must fit within one of the themes of this lecture program. The themes are:

- Energy transition
- Circularity
- Construction assignment/urban infill
- Less hindrance

The organization will assess lectures on this basis and then accept or reject them. Once a lecture has been accepted, it will be announced with title and summary through the official communication channels.

Lectures are given at the invitation of the organization or by exhibitors.

Exhibitors who want to make use of this (free) option must register with the organization no later than August 15, 2023. You can register for lectures using the appropriate form. You can download this form from the website www.no-dig-event.nl.

Lectures can be recorded for subsequent publishing.

Courses

Courses are given in the adjacent conference center (about 250 meters from the exhibition floor).

Courses are given by external training institutes at the invitation of the organization or by training institutes that request this from the organization no later than August 1, 2023.

The organization has the right to refuse courses that do not or insufficiently interface with trenchless techniques and or if students have insufficient opportunity (less than 2 hours) to be present at the Event. Once a course has been accepted, it will be announced with title and summary through the official communication channels.

The acquisition, organization, content and conditions of participation regarding the courses are the responsibility of the relevant training institute.

3.2. Live demonstrations

The live demonstrations are a part of the experience program. They take place at the outdoor terrain next to the exhibition hall. Live demonstrations will be held on invitation by the organization or by exhibitors. Exhibitors who want to make use of this (free) possibility, must hand in their application September 15, 2023 latest.

Due to the space available, live demonstrations are always in consultation with the organization. The live demonstrations will be planned in fixed time slots, depending on the amount of live demonstrations. This is, of course, done in consultation with the demonstrators.

Exhibitors with a live demonstration get priority in the placement of outdoor stands over exhibitors without a live demonstration.

The terms of live-demonstrations will be published on our website: www.no-dig-event.nl.

3.3. Exhibitor evening

The exhibitors evening is held in the evenings after the first day of the fair, on 11 October. This will take place in the Hart van Holland from 7 p.m. to 11 p.m. During the evening, a buffet is served and there is light entertainment.

Exhibitors can register their stand crew and a maximum of 2 guests. Registration must take place no later than September 30, 2023. The costs for participation in the evening will be announced later.

4. Facilities

4.1. Entry

The event is free for all visitors. They can register via www.no-dig-event.nl. Exhibitors can register their stand crew with the organization..

All (registered) visitors and stand crew will receive a badge with their name upon arrival at the NSTT No-Dig Event. This badge provides access to all elements of the Event, among which the lectures, live-demonstrations, a networking party and free use of the shuttle bus between the train station and the Event. Participation in a course is excluded (check 3.1). Registration and financial handling of course participation takes place through the relevant institute.

4.2. Catering

The catering is free of charge and available for everyone attending. To ensure that this process runs smoothly, the catering will be organized as follows:

- At the start of every day and directly after noon, every stand will receive a pot of coffee and tea. Empty pots can be exchanged at the meeting point for a full pot.
- Coffee and tea is available for everyone during the entire event and can be picked up at the meeting points.
- Food will be available for everyone during lunch time and can be picked up at the meeting point.
- In the afternoon sodas and light alcoholic drinks will be available as well.

It is not allowed to bring your own drinks and food to the Hart van Holland terrain. This also applies for the stands. Private catering is therefore forbidden.

If there are any specific dietary desires, this can be arranged with Hart van Holland in consultation with the organization.

4.3. Overnight stay / Dinner

It is possible to book one or more hotel rooms and dinners at the Golden Tulip Hotel 'Ampt van Nijkerk', which is located on the Hart van Holland terrain.

Hotel and dinner reservations must be booked directly with the Ampt van Nijkerk (+31 33 247 1616). Please mention the NSTT No-Dig Event when booking. Payment must occur directly with the Ampt van Nijkerk as well. There is a special discount for visitors and exhibitors. You can request this during your booking.

4.4. Waste disposal

As an exhibitor you are responsible for your own waste. If the organization has to take care of the waste disposal, a fee will be charged afterwards.

4.5. Wifi

Wifi is freely available to all exhibitors and visitors. Even though the wifi-facilities are of great quality, we advise you to bring presentations in a stand-alone version.

4.6. Night security

During the nights (October 10 – 11 and October 11 – 12), security will be present at the venue.

5. Prices

5.1. Stand prices

5.3. Sponsoring

The NSTT No-Dig Event offers you plenty of opportunities for maximum profiling of your company, products and/or services before and during the NSTT No-Dig Event. The list below provides an overview of the possibilities. If you want something special, please contact us to discuss the possibilities.

| Sponsor-item | Price |
|--|--------------|
| 1/4-page advertisement* in the event catalogue | € 275 |
| 1/2-page advertisement* in the event catalogue | € 495 |
| Full-page advertisement or advertorial* in the event catalogue | € 880 |
| Item in the event bag (maximum of 1 brochure per organisation) | € 880 |
| Banner at the entrance | € 275 |
| Key Cords (1.250 items, to be provided by yourself) | € 825 |
| Flag outside (flagpoles present) | € 550 |
| Give-aways, specialties | Upon request |

* The sponsor is responsible for timely submission of advertisements/advertorials in accordance with the specifications of the organisers. These will follow later.

Do you have other ideas or requirements?

A great deal is possible by agreement. Please contact the organizers via info@no-dig-event.nl

6. Procedure and planning

6.1. Exhibitor registration

If you are interested in exhibiting at the NSTT No-Dig Event, please complete the attached exhibitors contract and return it to us. This can be done by email, to info@no-dig-event.nl.

Once we have received your exhibitors contract, we will contact you for further coordination. You can then choose a specific stand position. Your choice will be taken into account as far as possible. However, due to circumstances, the NSTT may decide to change the layout. Choices for stand location will also be awarded in order of registration.

In the interests of good organisation, please register before September 15, 2023.

After registration, you will receive an invoice. The terms of payment is 30 days.

If you have any questions, please can contact the organizers, via info@no-dig-event.nl.

6.2. Cancelling

If the NSTT decides to cancel the NSTT No-Dig Event or if the Dutch government decides to prohibit all big events, every exhibitor and sponsor will receive their initial payment in return, with a deduction of € 125,00.

If the exhibitor themselves decides to refrain from participating in the No-Dig Event, the following applies:

- If the exhibitor refrains from the event before the 1st of April 2023, they will be charged € 125,00.
- If the exhibitor refrains from the event after the 1st of April 2023 but before the 1st of Juni 2023, they will be charged 20% of the total amount*.
- If the exhibitor refrains from the event after the 1st of June 2023 but before the 1st of August 2023, they will be charged 50% of the total amount.
- If the exhibitor refrains from the event after the 1st of August 2023 but before the 1st of October 2023, they will be charged 90% of the total amount.
- If the exhibitor refrains from the event after the 1st of October 2023, they will be charged 100% of the total amount.

**) Total amount: the costs for the agreed stand area and the costs for any sponsoring.*

The above mentioned amounts are offset against amounts already paid.

6.3. Planning

We have set out the schedule for you below:

| Action | Deadline |
|--|---------------------------------|
| Publication of the lecture syllabus | November 15, 2021 |
| Close course registrations | August 1, 2023 |
| Submission of advertisements | September 1, 2023 |
| Close of registrations for presentations/workshops in the knowledge program | August 15, 2023 |
| Close of live-demonstration registrations | September 15, 2023 |
| Close of exhibitor registrations | September 15, 2023 |
| Submission of stand blueprints | September 15, 2023 |
| Closing of registration 'Exhibitors Evening' | September 30, 2023 |
| Hand in flags, banners, posters and leaflets at Hart van Holland (citing No-Dig Event) | October 10, 2023 |
| Assembly of the self-assembly stands | October 10, 2023, 8.00 – 20.00 |
| Deconstruction | October 12, 2023, 18.00 – 22.00 |

8. Regulations venue Hart van Holland

Delivery, assembly and parking

The address details for loading and unloading are: Gildenstraat 15, port 4 and 5, Nijkerk. You must also park here. If you arrive with a trailer, please park this as efficiently as possible, so that it takes up as few parking spaces as possible. No storage is possible at the location. Trailers have to leave instantly after delivery.

Construction site

During assembly and disassembly, the exhibition hall is a construction site. You are advised to wear safety shoes.

Safety

- In connection with fire safety, no packaging materials (including boxes/cardboard) may be stored in or behind your stand.
- Emergency exits must be kept clear at all times, on both the inside and the outside of the building. Hart van Holland has the right to move or remove materials when blocking the emergency exits. Fire extinguishers must be accessible.
- All suspended equipment must be fitted with extra fall prevention devices (safety). It must also be certified and its application must comply with the NEN 8020-15 standard (events lifting and hoisting technology). A certificate must be provided on request.
- The stand assembly materials that you use must be fire-safe. In the event of doubts, the venue will request a safety certificate or conduct a test.
- If the safety requirements are not met, you will be required to remove the relevant materials.
- Open flames are not permitted.

Security

The location is equipped with an alarm system. If theft and/or damage nevertheless occur, Hart van Holland is not liable.

Outside

The paving of the outdoor site is suitable for all vehicles permitted on Dutch roads.

This is recorded in the description below:

The load below one (single) axle may not exceed:

- tons for a non-driving axle
- 11.5 tons for a driving axle
- 12 tons for an axle of a machine (in the Netherlands only)

The permitted load for an axle system with two non-driving axles is:

- 11 tons if the distance between the axles is <1.00 metre
- 16 tons if the distance between the axles is ≥1.00 metre and <1.30 metres
- 18 tons if the distance between the axles is ≥1.30 metres and <1.80 metres
- 20 tons if the distance between the axles is >1.80 metres

The permitted load for the axle system of a trailer or semitrailer with three axles:

- 21 tons if the distance between the axles is <1.30 metres
- 24 tons if the distance between the axles is ≥1.30 metres and <1.40 metres

In the Netherlands, these costs are developed in more detail for different types of axle systems.

The permitted load for an axle system with two axles, as least one of which is a driving axle:

- 11.5 tons if the distance between the axles is <1.00 metre
- 16 tons if the distance between the axles is ≥1.00 metre and <1.30 metres
- 18 tons if the distance between the axles is ≥1.30 metres and <1.80 metres
- 19 tons with a distance between the axles of ≥1.30 metres and <1.80 metres, if the driving axle is fitted with dual tyres and pneumatic suspension

19 tons with a distance between the axles of ≥1.30 metres and <1.80 metres, if both driving axles are fitted with dual tyres, and the load beneath none of the axles is over 9,5 tons

In the Netherlands these descriptions are further elaborated for different kinds of axles.
